RAILWAYS TO ASK BOARD FOR WAGE CUT

Request Will be Made For General Reduction

TO MEET IN SECRET

Decrease in Business and High Pay-roll Reasons Assigned — Seek Change of Method of Paying

Chicago, Jan. 28.—General wage reductions on the larger railroads all over the country will be considered tomorrow by the labor committee of the American Association of Railway Executives in an effort to solve what railroad officials say is a precarious transportation situation. The meeting will make definite recommendations, with a view to bringing the matter before the United States Railroad Labor Board.

W. W. Atterbury, vice president of the Pennsylvania lines and chairman of the labor committee, arrived here to convene the committee, but no action was taken. Today [illegible] Central Railroad; H. E. Byram, Chicago, Milwaukee [illegible]; C. H. Markham, president of the Illinois Central; N. D. Maher, president of the Norfolk and Western, and W. R. Scott, president of the Southern Pacific lines in Texas and Louisiana.

Failure of increased rates to earn the expected revenue, decrease in business, the present large pay roll and high operating expenses were given as the reasons for probable action before the Railroad Labor Board to cut wages.

"Many railroads are in bad financial condition," declared Samuel O. Dunn, advisory counsel to the Association of Railway Executives, yesterday. "This is due to a decline in business and failure of the rates to earn the revenue expected. Railroads during September, October and November, 1920, when they did their heaviest business, failed to earn the large net returns expected.

"The roads have made reductions in their forces made necessary by the decline in business. They are operating as economically as possible and they find no way out except to reduce the pay roll. The 1917 pay-roll of $1,700,000,000 is today increased to $3,700,000,000 and as a result many roads are in bad financial condition. Beginning with November there has been a decline in business until the freight movement now is less than two-thirds of what it was three months ago. Apparently there is no way out except to reduce wages."

Denouncing the national agreements between the railroads and their employes as restrictive, productive of inefficiency and, relating to piece work, obtained by propaganda and undue influence, the railroads made formal request yesterday before the board for abrogation of the existing agreements.

E. T. Whiter, chairman of the railroad committee, before the board, in its hearings on rules and working conditions, declared the public owes all the railroads need to earn a fair return on the value of their property. Unless rules can be changed which tend to promote efficiency and economy of operation the railroads cannot secure the in-

A deck schuffle board tournament between the young people and the married enthusiasts will feature the Y. M. C. Heretofore only sixteen players could be accommodated, and it has been decided to provide for just twice that number.

The same pictures will be shown free to the youngsters at 3:00 o'clock in the afternoon. The new screen has been received and is the last word in a moving picture screen and many have expressed surprise at the great difference it makes in the projection of the picture.

Motor Day In Court

Two it is Alleged Fail to Stop When Electric Trains Were Letting off Passengers—Two for Speeding

The alleged failure of two automobile drivers to stop while trains on the Washington-Virginia Railway were detraining passengers on King street yesterday was responsible for drivers of two motor vehicles being cited to appear in the police court today. Conductor Russell Thompson of the Washington-Virginia Railway, appeared as complainant.

The first case called was that of the driver of a jitney bus operating between here and Washington. He said he would like to have two witnesses summoned and Justice Snow postponed the case till tomorrow.

The second case was that of a white youth who drives for M. E. Parker and Brother. Mr. Parker made a plea for the accused lad and the court under the circumstances acquitted the boy with a reprimand, The court however, stated that it had no patience with the speeders who disregard traffic regulations and would impose fines of not less than $25 for all such cases in the future as the motorists jeopardized the lives of persons getting on and off trains.

Two other cases were called, one being a man and one a woman for violating the traffic laws. They were arrested by Policemen Durrer and Magner and each forfeited $5 collateral.

COLD-KILLING CLOSET GIVEN WESSESLEY GIRLS

Wellesley, Mass., Jan. 28.—A Coryza closet to snuff the snuffles and nip the colds of Wellesley College girls is to be installed at Founder's Hall, it was announced yesterday. The Coryza closet is an air-tight little room, lined with zinc and filled with the healing and disinfecting vapors of eucalyptus oil and formaldehyde.

When a student feels a sneeze coming on she will rush into the wee compartment, shut her eyes, take a few deep breaths, utter a class yell and the pulmonary menace will vanish.

A similar closet was recently tested in Simpson cottage, the college infirmary. The results convinced Dr. Katharine P. Raymond, the college physician, of its value.

A census showed that 341 girls out of 367 had suffered from colds during the last twelve months. The students have been warned to discard the fashion of going about bareheaded on rainy days.

THIEF SHEARING POLES TRAPPPED BY DETECTIVES

New York, Jan. 28.—The story of how 10 Poles from New Haven, Conn., huddled together last night in an elevated train, their pockets bulging with money for passage back to Poland, were being sheared when the robber mistook a detective for an easy mark and placed his hand in the officer's overcoat pocket, was told in court today.

Pulling the emergency cord to stop the train, the detective struggled with the robber, while the motorman blew the train whistle, attracting policemen from the streets below. Lining up the Poles, it was found one of them missed a wallet containing $300, and another said he had felt someone tugging at the pocket in which he carried $400.

The lost $300 was alleged to have been found on the man with whom the detective struggled—Harry Brown, a chauffeur, who was held in $5000 bail on a grand larceny charge Police said their records showed he had been arrested 22 times since 1904, and convicted 19 times in various cities.

PETITION OF PROTEST ON FARE BOOST FILED

Is Signed Jointly by Various Agencies Protesting

EXPECT HEARING SOON

Former Corporation Counsel Conrad Syme of Washington to Represent Petitioners Before I. C. C.

A joint petition protesting against the proposed increase in fare on the Washington-Virginia Railway today was filed in Washington with the Interstate Commerce Commission. A copy also was sent to the State Corporation Commission and the Washington-Virginia Railway.

The petition is filed jointly by the Mount Vernon Division Commuters Association of the Washington-Virginia Railway Company, the city council of Alexandria, the Citizens' Association of Alexandria and the Chamber of Commerce of Alexandria.

It is expected that the Interstate Commerce Commission will grant a stay of execution for putting the proposed rates into effect February 13 and will fix a date shortly for the hearing of the case.

Former Corporation Attorney Conrad Syme, of Washington, has been obtained to assist the commuters in the fight. The Chamber of Commerce will be represented by Attorney James R. Caton and the city by Corporation Attorney H. Noel Garner. All of the attorneys will co-operate in this work and represent the various agencies who are protesting.

The petition filed contains four pages and was prepared by the attorneys engaged to fight the matter.

Conrad Syme is said to be an expert on rate cases, having had long experiences in this work and with the able assistance he will be given by Alexandria's array of legal talent and the unanimous support of the commuters indications already point to a victory for the commuters and the opinion prevails that the road will not get one cent increase.

The "Heart of the Hills," a Mary Pickford film, was shown this afternoon at the Elks' Auditorium for the benefit of the equipment fund of the Alexandria Hospital.

Kirk E. Wallace will operate the moving picture machine of the local Y. M. C. A., for both the afternoon and evening performance.

The music will be by McWilliams' orchestra. Several members of the board of lady managers of the hospital are in charge, assisted by a number of young ladies.

EX-KAISER MAY BE CALLED AS WITNESS IN DUTCH COURT

Amsterdam, Jan. 28.—The ex-Kaiser will probably be summoned to testify in an action brought against the Rotterdamsche Nieuwsblad by a German resident of Rotterdam. This newspaper recently published a warning concerning a certain person bearing a German-sounding name who was alleged to have used visiting cards bearing the wards "Steward and Private Secretary to his Majesty William II, at Chateau Doorn."

The man presenting the card was said to have been offering for sale pictures and furniture belonging to the former Emperor. The offering offended a German named Reisbermann, who instituted proceedings against the newspaper, which it is declared will probably summon the former Emperor to testify whether Reisbermann is in his service.

UNIONS OFFER HOOVER HELP.

Cleveland, Jan. 28.—Engine and train crews to move 50,000,000 bushels of wheat to be donated by Western farmers was yesterday offered by the chief executives of the big railroad brotherhoods, without charge for the men's labor, to Herbert Hoover, in charge of relieving starvation among the hungry millions of Europe.

The offer of the railroad men's service was contained in a telegram to Hoover and said it was believed arrangements could be made with the railroads to furnish solid trains to tarnsport this wheat to coast cities free of charge. The message was signed by Warren S. Stone, Grand Chief of the engineers; L. E. Sheppard, President of the conductors; W. S. Carter, President of the firemen, and W. G. Lee, President of the trainmen.

Mr. Stone took up the matter with the railroad executives after he returned from a farmers' convention at Columbia, Mo., last week, where President Gustafsen of the farmers organization of Nebraska said the Western farmers were ready to donate 50,000,000 bushels of wheat to starving Europeans.

STINNES INVESTS IN AUSTRIA

Vienna, Jan. 28.—Hugo Stinnes, the German industrial magnate, seems to be very anxious to obtain a firm hold on Austria. He recently bought a large holding of shares in Austria's largest iron and steel company, which owns enormous iron ore deposits in Styria.

Stinnes also seems to be desirous of moulding public opinion in Austria, as, following his purchases of German newspapers, he is reported to be negotiating for several Austrian journals. He is said to be anxious to obtain possession of a pan-German paper published in Vienna as well as several in the provinces, at Innsbruck and Salzburg, for example.

Stinnes's movement in this part of Europe are kept as secret as possible but it is said that he is at present in Budapest or is going there with the object of obtaining control of the Budapest press.

MAY TRY FORMER RECTOR

Los Angeles, Cal., Jan. 28.—Trial of the Rev. Baker P. Lee, formerly rector of Christ Church here, before twelve of his peers in the Episcopal Church, on a charge of violation of an ecclesiastical canon in having performed a marriage ceremony for Alfred I. Du Pont, powder manufacturer of Wilmington, Del., and Miss Jessie D. Ball, of Los Angeles, was being considered yesterday, according to church officials. The marriage occurred here last Saturday.

A resolution was adopted at the convention of the Diocese of Los Angeles assuring the Right Rev Joseph H. Johnson of the support of the convention should he decide, as Bishop of the Diocese of Los Angeles, to call Mr. Lee for trial.

The charge, it was said, would be violation of Canon 42, which forbids performance of the marriage ceremony by an Episcopal clergyman when one of the parties is divorced and has a former spouse living.

Mr. Lee declared he had been "fully justified" in performing the marriage, and "would fight to a finish," any charges which might be preferred against him.

ARMY OF 150,000 HARDING'S VIEW

Appropriation Bill Cuts Estimates In Half

40,000 TO LOSE PLACES

Construction Stopped and Half of the Camps Eliminated—To Sell 10,000 Motor Trucks and 20,000 Horses.

Washington, Jan. 28.—The Army Appropriation bill to be reported to the House today will provide for an army of only 150,000 men, instead of 175,000 authorized in the Army Reorganization bill recently passed by both houses.

The reduction was made at the express suggestion of President-elect Harding at a recent conference he held with him, Chairman Anthony, of the subcommittee which drafted the bill, said last night.

The bill will carry appropriations totaling $328,000,000, a reduction of $62,000,000 from the amount for the current year and a cut of more than half of the $690,000,000 estimate submitted by the War Department.

The most drastic of the cuts was in the amount provided for the pay of civilian employes. These will be reduced by one-half and it means the dismissal of from 30,000 to 50,000 employes, Chairman Anthony said the subcommittee felt the soldiers could take on many duties now performed by civilians.

An instance of the reduction is found in the provision that officers hereafter perform many of the duties carried on by civilians in vocational education. The estimate for this item was cut from $1,400,000 to $60,000.

Nearly all construction would be eliminated and the War Department must dispose of at least half of the present army camps.

The measure looks to the early withdrawal of troops from Germany.

Under the bill 10,000 motor trucks and 20,000 horses and mules are to be placed on the market.

The bill provides for developing two novel discoveries by officials of the War Department. One of these is an "amphibious tank" which will take to water, with almost as much ease as it takes to land, and travel 28 miles an hour. Another device to be developed is an airplane that will fire 3 inch guns, or the old French 75.

A move toward disarmament also was made in the Senate, Senator Borah, of Idaho, author of the recently adopted resolution for a six month holiday in naval construction, announced today that he would offer a resolution today for a general inquiry as to the comparative value of surface war ships, submarines and aerial equipment.

AMERICAN RED CROSS. We have just received the Annual Report of the American National Red Cross for the year ended June 30, 1920. Its pages are a commentary on Christian Civilization. Not one other of the great religious faiths of the world could produce an organization so full of good works and almsdeeds. Nor could this most powerful servant and exemplar of Christianity have existed at any other period of the world's history. It is the leaven of the Master working through Time to Eternity. Remember those wondrous words: "And now abideth faith, hope, charity, these three; but the greatest of these is charity."

The Red Cross resources, June 30, 1920, reached the stupendous sum of $105,236.75. The operations of the organization extend over the known world. To most of us this marvelous report is a tangible and impressive lesson in optimism.

ATHLETICS FOR AMERICAN SCHOOLS. It has been said that the battles of England were won on the cricket-fields of Eton and Harrow. The principle underlying this generalization has enough of truth in it to make it worthy of consideration. The ancestors of the English were largely the old Norse pirates whose idea of Heaven was a never-ending battle-field, and where eternity was one round of fighting by day and drinking by night. They drank from the skulls of their enemies at their barbaric feasts, and the Norse word "skol," meaning "good luck", "health", or, "here's to you," had its origin in this custom. The Norsemen, one of the greatest races the world has ever produced, left impress, not only on England, but on France as well. One of their sea-kings was bribed to pay tribute to the French sovereign, and on his first performance of the ceremony, was told he must kneel and kiss the king's hand. He hesitated a moment, and then kneeling, seized the king's foot and threw him head over heels backward athwart his throne. He and his doughty followers laughed long and loud as the king was picked up by his courtiers. The French laughed too, but on the other side of their mouths. They dared not resent it, and afterward the Norsemen went down in high good humor and settled the province of Normandy. Whence came centuries later that Norman William who overthrew the Saxon monarchy at the famous battle of Hastings, in 1066.

Our English forbears were chips of the old Norse block. They were rough, rude, and coarse in their texture for hundreds of years. Their sports were cruel and primitive. Bear-baiting, dog fighting, combats with the quarter-staff or naked fist were common well into th sixteenth century, or later. Down to this day a prize-fight draws bigger crowds than any other form of contest. Even the English women shared the excitement of these brutal sports with their men-kind. They went to a hanging or a head-chopping with unconcealed enjoyment, and like their French sisters of a later day took their luncheons and knitting along with them.

Naturally, civilization has tamed this fierce blood into more moderate habits. But there still lingers in the veins a thrill and a zest for exhibitions of physical skill, daring, and manhood. Now the sports are without the ferocious and inhuman elements that formerly characterized them. They make for courage, daring, and manhood just the same, but they do not stifle the nobler traits and features that belong to our present civilization.

All of which leads up to the heading of this editorial. The University of Virginia has just scheduled five boxing matches with other South Atlantic colleges. Our own schools are erecting a stadium for athletic sports We think these are admirable things and will do much towards leavening the national character, and preventing it from becoming—pardon us, ladies—too effeminate. Whether we will or not, in this life spirit is wedded to matter—soul to body—and we must bring both nearer together in order to achieve a harmony between the two. This can be best done by elevating the rougher physical virtues into a kinship with the finer spiritual forces. Another thing, it extirpates that morbid introspection which may be called the curse of modern society, and caused the 19th century to be called the Hamlet of centuries.

Pepto-Mangan, Nature's Beautifier

It is the Coloring Matter of Pure Blood That Makes a Good Complexion

Beauty is more than skin deep. No one can have [illegible] delicate skin, glowing with health if the blood is impure or lacking in the vitally necessary iron that gives the colorings matter to the "life fluid." Neglect of regular and necessary waste elimination, helps to render the blood impure and reduce its iron contents. The best cosmetic in the world is pure, healthy, iron rich blood.

Doctors, realizing the importance of enriching and improving the blood, have for years prescribed Gude's Pepto-Mangan, the pleasant and proved blood builder and tonic.

Pepto-Mangan contains just the elements needed to change thin, watery blood to good, red blood. Pepto-Mangan builds rich, red-blood, enabling it to carry strength and vigor to every part of the body.

Gude's Pepto-Mangan has become so well known, by reason of doctors recommending it, that you can get it in tablet or liquid form at any drug store. Instead of trying to cover up a poor complexion, get a bottle of Gude's Pepto-Mangan and note how soon you feel better, work harder, play with more zest—and how your skin and complexion are improving.

Only make sure to get the genuine It has "Gude's" on the package.

Stand to Win Priceless Health.

Hundreds of sufferers from Rheumatism have accepted the same proposition that has been made to you above. Not one of those sufferers has ever returned a bottle of Re-Cu-Ma and asked for his money. Why? The answer is simple. Re-Cu-Ma brought the relief that we claim that it will. It is impossible to say that any medicine, no matter how carefully, the formula is prepared, will give relief to every case. It is not impossible for us to protect you, however, and say to you, "Re-Cu-Ma has done as we claimed in hundreds of cases. If it doesn't do it in your case we will gladly return every cent that you paid for Re-Cu-Ma without asking a question."

This offer is the fairest that can be made. Accept it. See for yourself whether or not Re-Cu-Ma will do what we claim it will. Sold by Rixey Drug Store.

HAD SUFFERED 15 LONG YEARS STATES JOYNER

Tar Hee Farmer Says It's Nothing Less Than Wonderful Way Tanlac Has Helped Him.

It's a fact two bottles of Tanlac have done me more good than all the other medicines I have taken in fifteen years," said A. B. Joyner, a well known farmer of Walnut Cave, N. C., R. F. D. No. 4.

"Up to the time I began taking Tanlac I had not been able to eat a square meal in fifteen years without suffering afterwards After eating I would have an awful stuffed up, bloated feeling, and at times my breath seemed to be almost cut off. Sometimes I had such severe pains in the pit of my stomach that I would nearly double up, and I was so restless I could never get a night's sound sleep.

"I just tried nearly everything but kept going from bad to worse until my farm work got to be an awful drag to me, I finally got to reading about Tanlac, and decided to try it.

"What two bottles of this medicine have done for me is nothing less than wonderful. My appetite is splendid already and I never feel a touch of indigestion. I sleep like a log every night and am feeling just fine."

Tanlac is sold in Alexandria by Edgar Warfield, jr. and good druggists everywhere

FIRST OF HARDING'S GOODS GOES TO WHITE HOUSE OFFICES

Washington, Jan. 28.—Moving of the personal effects of President-elect Harding and Mrs. Harding in to the Executive offices of the White House was begun today from the Harding home on New Hampshire Avenue. Mrs. Harding came from Marion Sundry to attend to this work.

The Harding home is to be sold together with the furniture, and only a few personal belongings have been preserved to supplement the articles with which the White House is furnished.

It was upon the invitation of Mrs Wilson, extended some time ago that Mrs. Harding decided to make ready in advance for the change. An antique settee, several chairs, heirloom pictures, and some rare china were among the articles chosen to be carried into the White House.

The single wagon load taken to the Executive offices of the White House yesterday is expected to remain there until the President elect is inaugurated into office.

ENDS STUDY OF DEBS CASE

Washington, Jan. 28.—Recommendations of the Department of Justice as to a pardon for Eugene V. Debs, now serving a prison term at Atlanta for violation of the Espionage act, will probably be submitted to President Wilson within the next few days.

Officials of the department said yesterday a study of the case had been completed by the department's attorneys and put before Attorney General Palmer. They gave no indication as to whether a pardon would be recommended.

President Wilson has said, however, that he would not pardon Debs, as he believed such action might lower the morale of the people in the event of another war.

QUAKER RELIEF PARTY TO LEARN ERIN'S NEEDS

New York, Jan. 28.—Eight members of the Society of Friends, working in the interests of the American Committee for Relief in Ireland, will sail for Ireland Saturday on the Carmania to ascertain the nature and extent of American aid required to alleviate Irish suffering and pressing economic needs.

C. J. France, of Seattle, brother of Senator France, of Maryland, will head the delegation of Friends, it was announced last night.

Other members include R. Barclay Spicer, former editor of the Friends' Intelligencer; Walter C. Longstreth, lawyer, and William Price, architect and builder, all of Philadelphia; Orrin R. Wilbur, of Greenwich, N. Y., dairy farmer, who represented the American Friends' Service at the 1919 Friends' conference in Dublin; Philip W. Furnes, of Richmond, Ind., of the Friends' Relief Unit in France during the war; John C. Baker, Everett, Pa., for two years engaged in agricultural reconstruction in France, and Samuel Duff McCoy, New York, author and journalist.

Donal O'Callaghan, Lord Mayor of Cork, whose status in this country was that of a seaman awaiting a chance to reship from some American port, has dropped out of sight.

Paris, Jan. 28.—Eamonn de Valera, whose presence in France has been rumored recently, has been found at Tours, Central France, according to a correspondent of the newspaper Oeuvre. The journalist quotes the Irish Republican leader as declaring he proposed to travel back from Tours by airplane with the intention of landing on Scotch territory in the vicinity of Glasgow.

D. S. M. to Bernard M. Baruch For His World War Services

Washington, Jan. 28.—Secretary Baker yesterday announced that President Wilson had awardded a Distinguished Service Medal to Bernard M. Baruch for his services in connection with the World War. The citation in Mr. Baruch's case was given out as follows:

"To Mr. Bernard M. Baruch, for exceptionally meritorious and distinguished services in the organization and administration of the War Industries Board, and in the coordination of allied purchases in the United States. By establishing a broad and comprehensive policy for the supervision and control of the raw materials, manufacturing facilities and distribution of the products of industry, he stimulated the production of war supplies, co-ordinated the needs of the military service and the civilian population, and contributed alike to the completeness and speed of the mobilization and equipment of the military forces and the continuity of their supply."

House Refuses Money for Ambassdor to Russia

Washington, Jan. 28.—The House voted down last night a proposal to pave the way for appointment of an ambassador to Russia and struck out of the Diplomatic Appropriation bill a provision for raising the American Legation at Peking to an embassy. A section providing for Ministers to Czecho-Slovakia and to Poland at salaries of $12,000 was stricken out on a point of order.

ASKED WIFE TO PAY HIM BONUS OF $3,400 A YEAR

Chicago, Jan. 28.—Nervell Cobb, manager of the brokerage branch of the American Surety Company of New York, tried to make his wife pay him a bonus of $1,000 a year and $200 each month as the price of living with her. This was her testimony yesterday, and she added that he had a good income, but his tastes were too extravagant for his salary, Mrs. Cobb, buyer for a Chicago deparament store, makes between $10,000 and $15,000 a year by her own efforts.

Mrs. Cobb said they were married in New York May 27, 1920, and separated September 29. In this brief four months of married life she was forced to leave him three times because of his cruelty. The first separation came June 19, at the Plaza Hotel, New York, where he created a scene. At that time he said she would have to pay him $200 a month and a flat gift of $1,000 each Christmas. She refused, and he struck her. In September he renewed the demand, telling his wife he was infatuated with a woman in Denver. His wife refused his demands, so he called her a liar and a thief and left her.

YOU NEVER CAN TAME A WILD CAT

Mr. Dodson Warns Against Use of Treacherous, Dangerous Calomel

Calomel salivates! It's mercury. Calomel acts like dynamite on a sluggish liver. When calomel comes into contact with sour bile it crashes into it, causing cramping and nausea.

If you feel bilious, headachy, constipated and all knocked out, just go to your druggist and get a bottle of Dodson's Liver Tone for a few cents which is a harmless vegetable substitute for dangerous calomel. Take a spoonful and if it doesn't start your liver and straighten you up better and quicker than nasty calomel and without making you sick, you just go back and get your money.

If you take calomel today you'll be sick and nauseated tomorrow; besides, it may salivate you, while if you take Dodson's Liver Tone you will wake up feeling great, full of ambition and ready for work or play. It's harmless pleasant and safe to give to children: they like it.

A GOOD COAL:

We now have a fine grade of SPLINT LUMP and SPLINT EGG coal on hand and believe it will prove a very satisfactory fuel in many cases where anthracite has been used.

It is still hard to secure enough of the domestic sizes of anthracite coal and we are recommending the SPLINT coal as a possible substitute and giving our trade the benefit of reductions in prices on this coal.

CHILLY BATH ENDS DIXIE GIRL'S FIRST ICE TRIP

Red Bank, N. J., Jan. 28.—One shoe missing and a thoroughly ice bath—complicated with the possibility of a cold death by drowning—were the out standing features of the first ice-yacht trip of Mrs. Leslie Marshall, of balmy Alabama.

Mrs. Marshall, who is visiting here at the Garrison House, has her ability as a swimmer to thank for being alive after the initial experience with the sport of this colder clime.

The pluck of the Southern woman is causing much comment here.

She was in Andrew White's ice-boat, Brownie, when the craft crashed through the thin ice into six feet of water in the North Shrewsbury today.

Weakness of the ice made the efforts of crowds of skaters to rescue her useless. She was finally pulled out by White.

Except for the loss of the shoe and for the wetting Mrs. Marshall suffered no ill effects.

RICHMOND THEATER

A whirlwind star in a whirlwind picture is the promise for the Richmond Theatre today and tomorrow, when Tom Mix, the daring Fox cow boy actor, will be the attraction in "The Texan," filmed from James B. Hendryx's story of that name. Lynn Reynolds was the director, and it is said that he has obtained some beautiful and effective exteriors as the background for an absorbing story of life and adventure on the plains of the Southwest.

At the Ingomar Bessie Barriscale will be seen in the Triangle Production, "The Green Swamp," Chapter 9 of "The Tiger's Band" will also be shown.

PUTS HATFIELD CASE IN JAIL

20 Defendants in Prison for First Time Since Matewan Slayings

Williamson, W. Va., Jan. 28.—With the bitter feeling among five clansmen growing more and more pronounced, the second day of the trial of Sid Hatfield and a score of other defendants charged with the slaying of seven Baldwin-Felts detectives at Matewan last May was marked by a triple victory for the State.

Scoring first when Trial Judge Robert D. Bailey overruled the motion of the defense that the indictments be quashed, the prosecution added another victory when the court ruled the defendants' bond held good only for their appearance in court and ordered all committed to jail during the noon adjournment. Still another prosecution victory was recorded late yesterday afternoon when Judge Bailey, following a heated debate of counsel, ruled the members of the United Mine Workers of America could not be seated as jurors.

In accordance with the court's ruling on the bail bonds, twenty-one of the twenty-three defendants are today in jail for the first time since the pitched battle was fought at Matewan. All had been out on $10,000 bail each since the killings and have roamed at will. That Judge Bailey's ruling was a precautionary move to prevent the smouldering fire of fendism, which has already exacted its toll of human life, from breaking out afresh was the opinion here last night. The gun play in the court room yesterday charged to Sid Hatfield is believed to have been the principal factor in Judge Bailey's action. Hatfield yesterday denied the charge and claimed it was "just another of Tom Felt's lies." When adjournment was taken late yesterday afternoon only seven of the twelve jurors had been selected, the rest of the day having been given over to debate. Delay was occasioned, too, by the fact that many of prospective jurors were employed [illegible] Hatfield [illegible] ruled [illegible]

At the opening of court Bailey announced that the motion for the quashing of the indictments, argued yesterday by Attorney [illegible] chief counsel for the defense, had been overruled.

Prosecuting Attorney Bronson asked that indictments against Isaac Brewer and Fred Webb be nolle prossed, no evidence having been found to connect either with the killing of Albert Felts, the specific indictment upon which the defendants are now being tried.

Immediately the rumor was spread that one of the men had turned traitor to the defense and would testify for the State, but this report was not confirmed.

Ireland James was the first juror accepted. Charles Fink was the second and H. K. Cantrell, the third.

At the opening of the afternoon session John [illegible] was examined on examination for jury service. He is a striking miner. The State objected, claiming the United Mine Workers are financing the defense. Justice Bailey ruled that no member of the United Mine Workers could serve on the jury.

RAILWAYS TO ASK BOARD FOR WAGE CUT

reases in efficiency and economy necessary to protect the public from excessive costs of transportation and excessive rates."

By a decision of the board notices of wage reductions on the Atlanta, Birmingham and Atlantic Railroad, which were to be effective February 1, were ordered rescinded. The board making the decision decided that the railroad companies must present a petition for any reduction in employes' wages.

The board set February 10 as the date on which public hearings will begin. The railroad, in presenting its case Tuesday, declared it was unable to meet operating expenses and that a loss of $100,000 monthly made wage reductions necessary, as forces already had been cut and operating expenses reduced to a minimum.
